1	introduction	8
1.1	What are Raw files?	8
1.1.1	Artifacts	14
1.2	Workflow Overview.....	15
1.2.1	Principle Workflow Steps (The “What”)	15
1.2.2	Essential Digital Image Processing Knowledge (The “How”)	17
1.2.3	Advanced Digital Image Processing Knowledge.....	18
1.3	Where to find more information	19
2	Workflow Basics	20
2.1	Color Management.....	20
2.1.1	Getting Started	20
2.1.2	Working Spaces	24
2.1.3	Profiles for Devices	26
2.1.4	Photoshop Color setup.....	26
2.2	Photoshop Essentials.....	29
2.2.1	Color Modes	29
2.2.2	Know the Difference between 8 and 16 Bit Data.....	31
2.3	ColorCast	37
2.4	Sharpening	38
2.5	Noise Removal	42
2.6	Photoshop tools and techniques	44
2.6.1	Photoshop CS Shadow/Highlight	44
2.6.2	Photo Filters	47
2.6.3	Color Mechanic Pro.....	48
2.6.4	iCorrect EditLab.....	50
3	Overall Workflow.....	51
3.1	Capturing Photos in the field	54
3.1.1	Know your Histogram	54
3.1.2	White Balance (WB)	57
3.1.3	Using ISO	57
3.2	Camera to Computer	58
3.3	Backup	61
3.4	Select Images with the “Digital Light Box”	62

4	RAW FILE conversion (Bonus Material)	64
4.1	RAW Converter essentials	64
4.1.1	The RAW Workflow	64
4.1.2	RAW Converter Responsibilities	65
4.1.3	RAW Converter Essentials.....	68
4.1.4	Camera Profiles and Tone Curves - Essential	68
4.1.5	White Balance (WB) - Essential	69
4.1.6	Exposure (EV) - Essential	71
4.1.7	Noise Removal (NR) - Optional (some NR may be essential) ...	72
4.1.8	Moiré -Optional.....	72
4.1.9	Other important Features	73
4.2	Adobe Camera Raw 2.0	77
4.2.1	Integration into THE Photoshop CS File Browser	79
4.2.2	Camera Raw 2.0 User Interface Overview	79
4.2.3	The User Interface Elements.....	81
4.2.4	Saving and reusing settings	95
4.2.5	Recording the Camera Raw settings.....	96
4.2.6	Batch conversion.....	96
4.2.7	File Browser Integration	97
5	Working With Photoshop Layers	100
5.1	Understand the Layers Palette.....	101
5.2	Our first Layer.....	104
5.3	Opacity and Blending Modes	105
5.4	Adjustment Layers.....	106
5.5	Layer Masks	108
5.6	Flatten Image and Merging Layers.....	110
5.6.1	Flatten Image	110
5.6.2	Merging Layers.....	110
5.7	Using Actions and Filters in Layers	112
5.8	Smart Cropping	115
5.9	S-Curves Revisited.....	120
5.10	Moiré Removal Revisited	123
5.11	Using Auto Colors to Tune Contrast.....	123
5.12	Advanced Blending Options	128
5.13	Dodge and Burn Layers	130

5.14	Advanced sharpening with layers.....	133
5.14.1	Advanced sharpening tricks	134
5.15	Reduce Chromatic Aberration (CA).....	145
6	Step by Step JPEG workflow	149
6.1	Improving and Retouching using PS CS Layers	151
7	Printing	160
7.1	Lightjet Printing.....	160
7.2	Inkjet Printing.....	161
7.2.1	Setup for Epson Printers and use with Photoshop.....	162
7.3	Upsizing.....	165
